WOOL MARKET IS FLAT.

Boston, Mass., July 8.—As a result of a steady decline in the prices of
wool in the American market, Boston wool dealers have not only stopped
large quantities of wool in transit from Australia and sold them in London,
but more recently this city has assumed the unusual position of actually
being a wool exporter.

It is estimated that about 1,700,000 pounds of foreign wools, held in bond
here, have recently been shipped to London to be sold at auction. For six
months this year Boston has exported 3,550,000 pounds of wool as against the
nominal amount of 170,000 pounds for the same period last year.

These figures, however, represent very inadequately the wool which has
been taken out of the Boston market, owing to the depression in the American
textile industry.
